IHI two-stage procedure – key concepts

Pre-identified industry consortium (including contributing partners if any) align themselves around a real challenge in health care agree to work together (across sectors) and commit resources

New ideas from **Applicant consortium** (research organisations, patient organisations, SMEs, other healthcare stakeholders etc.) are needed to address the challenge

Scale is a key to success and is provided by the leveraging of IHI funding with industry contributions in the **Full consortium** (Public Private Partnership)

Outcomes should be transformative for healthcare and meet end-users needs

How does IHI two-stage procedure work

Intellectual Property Rights ('IPR') in IHI

Snapshot of key IP concepts for IHI Actions

Background: As defined in the MGA (Article 16.1), “‘Background’ means any data, know-how or information — whatever its form or nature (tangible or intangible), including any rights such as intellectual property rights — that is:

- (a) held by the beneficiaries before they acceded to the Agreement and
- (b) needed to implement the action or exploit the results”.

Results: any tangible or intangible effect of the action, such as data, know-how or information, whatever its form or nature, whether or not it can be protected, as well as any rights attached to it, including intellectual property rights

Access Rights: define who and when can use Background and Results

IPR in IHI

- Horizon Europe ('HE') legal basis applies (no specific derogations for IHI JU, unlike IMI2).
- IHI IPR rules derived from:
 - Horizon Europe Model Grant Agreement ('MGA') Article 16;
 - supplemented by specific rules identified in HE MGA Annex 5 and;
 - where relevant, the applicable call conditions.
- IHI JU maintains right to object to transfers of ownership of results or to grants of exclusive licences.
- Results Ownership List ('ROL') to be submitted at project end as part of final periodic report listing all results and ownership of them (including joint ownership structures).
- Emphasis on Exploitation and Open Science:
 - HE MGA integrates Open Science dissemination model;
 - Affordable Access Provisions can, when provided for in the call conditions, introduce additional exploitation obligations for relevant IHI topics;
 - Unexploited project results can be matched with interested parties via the Horizon Results platform.
- * Project IPR specificities to be agreed amongst all parties and detailed in the project Consortium Agreement

Evaluation criteria and thresholds

- Minimum of 3 independent experts
- Each proposal evaluated 'as it is', not as 'what could be'
- Sub-criteria listed in evaluation form

Criteria	Threshold
Excellence	3/5
Impact	3/5
Implementation	3/5
TOTAL	10/15

Evaluation criteria – Tips

Excellence:

- Address all the objectives of the topic text (unless written otherwise). You should not pick and choose or you will be penalized.
- Clearly describe how your methodology has incorporated knowledge from various stakeholders. This is NOT about the consortium composition but about the knowledge build into the methodology

Impact

- Please provide meaningful and MEASURABLE estimates when it comes to your project's contribution to impacts. We often see unrealistic impacts with no justification

Implementation

- Prepare clear graphs, Do not list deliverables at this stage, focus on the overall structure of your project, your WPs and their overall objectives.
- Reflect and leave some space to describe how your consortium will fit with the industry consortium: read the topic text and what the industry is bringing to the project and show you have taken this into consideration, and you are aware that you are not on your own.

Agreements for IHI Actions

IHI Grant Agreement

- The new Horizon Europe Model Grant Agreement 'HE MGA' includes 44 articles, as well as specific Annexes.
- IHI JU follows HE MGA with IHI JU specificities reflected in Annex 5.
- It is e-signed between IHI JU and Coordinator only. **Other beneficiaries e-sign Accession Forms.**

Consortium Agreement for IHI Actions

- Contractual arrangement between all participants to set out their rights and obligations, especially governance, liability and IPR.
- IHI JU is not a party/signatory.
- Shall comply with the HE MGA.
- To be fully agreed before the signature of the GA.
- To be adapted to the specific needs of each IHI JU action
- Templates are available in the IHI website (templates provided by private members, DESCA (Development of a Simplified Consortium Agreement)).
